

2022 IFCPF Anti-doping Report

CP Football: Clean Sport ... Compliant Sport

Anti-doping action within CP Football was implemented this 2022 year, not only to meet with fair competition criteria but also for IFCPF compliance tasks ensuring application within CP Football of international anti-doping policies in conformity with the WADA Code.

Achievements:

Testing

- 4 in-competition tests at the 2022 IFCPF Men's World Cup.
- 4 in-competition tests at the 2022 IFCPF Men's World Championships.

Therapeutic Use Exemptions (TUEs):

During 2022, IFCPF Therapeutic Use Exemptions Committee managed all TUE applications. All TUE applications were submitted via ADAMS (Anti-Doping Administration and Management System) and so were the TUE management steps implemented, in full confidentiality.

2023 objectives:

- Ensuring full compliance with the WADA Code
Anti-doping education and outreach programs
- Anti-doping committee to be reinforced.
- Strengthening collaboration with anti-doping stakeholders for information share and expertise exchange.
