

2023 IFCPF Anti-Doping Report

Testing Pool (TP)

OOB tests were conducted for four European countries ahead of the 2023 IFCPF European Championships.

Out of Competition (OOC) Testing

- In 2023, four (4) OOC tests were undertaken in May which was directly before our 2023 IFCPF European Championships.
- Eight (8) OOC tests were conducted by Sport Integrity Australia, for four (4) male and four (4) female Australian athletes.

In Competition (IC) Testing

- In 2023, four (4) IC tests were undertaken at our 2023 IFCPF European Championships in Sardinia, Italy for male athletes.
- No IC tests were conducted at the 2023 Youth Para PanAmerican Games due to this being classified as a low-risk event. This tournament is the only current U19 competition in the IFCPF tournament cycle and does not form a qualification opportunity for another event.
- No IC tests were conducted at the 2023 IFCPF Club World Cup due to this being classified as a low-risk event. This tournament is only the second edition of the annual event and is currently of low performance standard.
- Five (5) IC tests were performed at the 2023 IFCPF Asia-Oceania Championships in Melbourne, Australia. These included three (3) male athletes and two (2) female athletes.
- At the 2023 Para PanAmerican Games in Santiago, Chile, there were a total of 14 IC tests conducted on CP Football (male) athletes.
